PORK and BEANS

The Weekly Market Fall

The Three are lots of samples
that do not put in perfect ones
This: Yes, the beans are full of
them

My dear: The good one takes long
times before it's ready!
My dear: That all depends on
how fast I've been out to.

While the collection was being
taken up the young man edged
his pocket, and finding nothing,
suggested to a couple who had
been at a rock. I changed my
pockets

Meanwhile the girl had been
searching her bag, and finding
nothing, she said to the girl and
said: "Look, I'm in the same
fix too."

"What's the young man's intention,
daughter?"
"I don't know, but he's keeping
me pretty much in the dark."

"Goodness, George! This isn't our
body! Tell me the wrong marriage.
What up! This is a matter
urgent!"

He—How that we say married,
perhaps I might venture to point
out a few of your claims.
She—That's better, dear, I am
quite aware of them. It was these
little defects that prevented me
from getting a much better man
than you are.

Man—Is that now watch day of
your own quest?
Neighbor: I'm glad! If you have
a suggestion under at night, you're
only got to wait him out by dark.

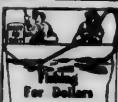

Friend—Say, old chap, you'd
not see me in this dress girl?
She was a beautiful beauty and so
was her mother.
Victim—Y-y-yes. But that's j-
you why I haven't not come out
yet.

Waiter (after a close inspection): Excuse me, unless it's some of them customers everyone is talking about now.

I heard today that you are an undertaker. I thought you told me that he was a physician.

Not at all. I don't like to contradict, but I'm positive you did say so. Yes, my professional card I've seen. I could not follow the medical profession.

Archie Ross and his Barred Paul Bridge Team took the Lower All Stars, composed of Lorne McArthur, and Lou and Chrystal into Camp by a score that looked like an M.P.'s expense account.

When interviewed the captain only answered in figures.

ROSS - I didn't think a 10-0-0 team 1000 on a team bid, did I see Lou do it.

LEWIS - I pushed in their hand or it would have been over.

CHRISTAL - I'm going to stick to curling.

McArthur: I have nothing to say, (as a matter of fact they said to him just like Wink after his game).

LEE - I just could not get the material. I should have been playing for half.

MYRLE - And somebody said they could play bridge.

BRIDGEMAN - I do not care to pre-emptorize. Besides I can make some farming.

McARINE - Guess they will have to go back and play bridge with the women again. They need an overbid.

Interesting Data On Population Relative To Wheat Production And World Market For Grain

Some very interesting data on the world's population, relative to wheat production, and the world market for grain, are given by the United States Agency for Food and Agriculture, in its report, "The World's Wheat For 1936." The report is published by the United States Department of Agriculture, Bureau of Agricultural Economics, and is available to the public at a cost of 10 cents per copy.

The report is based on the best available statistics for the year 1935, and is a valuable source of information for anyone interested in the world's wheat production and market.

The report shows that the world's wheat production in 1935 was 1,100,000,000 bushels, and that the world's wheat consumption was 1,000,000,000 bushels. The surplus of 100,000,000 bushels was available for export.

The report also shows that the United States is the largest producer of wheat in the world, with a production of 400,000,000 bushels in 1935. The United States is also the largest exporter of wheat, with exports of 100,000,000 bushels in 1935.

The report is a valuable source of information for anyone interested in the world's wheat production and market.

The report also shows that the world's wheat production is increasing rapidly, and that the world's wheat consumption is also increasing rapidly. This is due to the fact that the world's population is increasing rapidly, and that the world's standard of living is also increasing rapidly.

The Weekly Meat Poll

What do you think has out-
riggered the customer here in
this morning?

With Harmon? What was the
trouble?

Harmon: Well, she was too sleepy
to get up when he did.

Harmon talks about things when
I don't know the facts, remarked a
man in the crowd, and the cutting will
be made later. That is the worst of
this morning, especially.

Young Jimmie was playing his
new game, and he had a shot for
streetly, Jimmie, and another
streetly from across the street, do
you get the idea?

New report: Jimmie, dogged
only. That is a free shooting job.

That was a single
coloured started.

That is a single, the pocket
was not a single, but a shot.

That is a single, you know
what I'm talking about.

It is the young man I see
for your daughter's hand.

Young man, is that the father I
am and daughter of I see in motion.

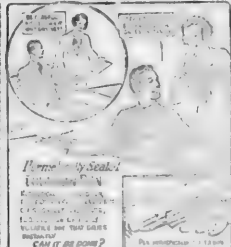

Applicant: Is there any opening
here for also, we have nothing to do.

Office: Yes, now, but there's
going to be if I don't get me and
my raised by tomorrow night.

Wide complacency: You said
now that you have no better than
your life.

Hub: Well, didn't I give up the
life I was living for you?

Victor: What pretty hair you have, doesn't you get it from your mother, don't you?
Jesse: No I guess I get it from father. His is all gone.

Angry Father (to small son after receiving school report): Where are you? How are you? You are not in the class, school of several last.
Small Son: But, Dad, I can't help it if the bottom boy is ill!

The fair young material pulled her car up at the garage and a beautiful secret of the proprietor.
If you change batteries, here's one advice.

The man touched his cap politely. You explain, no explain. I'll send you a reply. You will get a new one in this one and change it to my husband!

First (aged five, looking at father's fashion journal): Mummy, why do they take pictures of ladies who are not ready?

I had an appointment to meet my wife at the cinema, and I'm almost an hour late.
Then you'd better hurry, or she may be there a hour of you.

Why do you call your house a bungalow?
Well it is like a bungalow, what is it? The builder made a bungle of it, and I still own it for it.

Teacher: If you had 10 apples and the little boy across the street comes over and takes five of them what thing will you have?
Poppy: The five smallest ones.

Have you ever appeared on a witness before?
Yes, Your Honor,

For Homes Beyond the Gas Mains!

The NEW Coleman Instant-Gas

Just install a match, turn a valve... and presto... a three-year replacement gas flame... ready for cooking... No pre-heating... no waiting. The new Coleman Instant-Gas brings to your home the same service as the burner beyond the gas mains. Makes and burns its own gas from regular motor fuel.

No new burner. Let him show you all the fine features of this device... no other stove like it. Many models to select from.

Alberta Grain Growers

READ THIS MESSAGE

It is of vital importance that a strong co-
 operative elevator system should flourish in Al-
 berta. It is desirable that such an elevator sys-
 tem should be under the control of Alberta
 grain growers—men who are actually following
 the occupation of farming.

The Alberta Pool Elevator system is the only
 organization in Alberta that meets these re-
 quirements.

All country elevators of the Pool system are
 operated under public license and as such are
 in a position to handle the grain of any grower.

Alberta Pool Elevators are on a sound finan-
 cial basis; are efficiently managed and can give
 unexcelled service to the grain growers of this
 province. Alberta Pool agents are carefully se-
 lected and have strict instructions to give fair
 treatment, including proper weights and cor-
 rect grades, to all patrons.

Alberta Pool Elevators operate on the co-op-
 erative principle of "Each for all and all for
 each"—a principle which will tend to bring a
 measure of economic and social justice, peace
 and prosperity throughout the world.

Plans For Producing Valuable By-Products From Wheat Surplus Are Being Considered

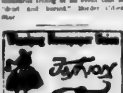

Plans for producing valuable by-products from Canada's wheat surplus are being considered by a committee of the Dominion Crop Commission, headed by Mr. J. H. McCreary, president of the Canadian Wheat Board.

The committee, which includes representatives from the government, the wheat board, and the public, is studying the possibility of producing a variety of products from the surplus wheat that has been accumulating in the country since the war.

One of the main suggestions is to use the surplus wheat to produce a type of animal feed known as "wheat middlings." This feed is made by grinding the wheat and removing the bran and germ, leaving the middlings which are rich in protein and other nutrients.

Another suggestion is to use the surplus wheat to produce a type of fertilizer known as "wheat straw." This fertilizer is made by burning the wheat straw and using the ash as a fertilizer for crops.

The committee is also studying the possibility of using the surplus wheat to produce a variety of other products, such as paper, textiles, and chemicals.

PORK and BEANS

The Weekly Shovel Pull

A lough is just like trouble
It loughs up the day.
It tips the peaks of life with light
And drives the clouds away.
The soul grows glad that knows it
And bids its courage strong
A lough is just like trouble
For chasing folks along.

Do you enjoy having some
joy?
No—Yes, providing they come
after dinner.

Shambler—Dance your wife—treat
you the same as she did before you
were in jail.
Married Man—Get away.
Before we were married, when
I displaced her she related to
speech.

Politeness—How do you proceed
for leaving all these things in your
pocket?

Why are you screaming open that
letter so nervously?

Frede—Oh I've had a quarrel
with Frank, and I want to see what
he has to say before I return his
letter unopened.

Farmer—How's your threshing
this morning, Loomley?
His wife—It doesn't bother me
at all this morning.

Farmer—You're too bad. We
could rain terribly for the crops.

Wife—I am to see the doctor
today, and I expect to tell
you so at dinner time.

Mamma—I don't think so. I
think yesterday and I told him if he
cost you there I couldn't pay his
bill.

Anglo-Irish Trade

Program of Reform Urged by Premier Bennett
The Premier of the Republic of Ireland, Eamon de Valera, has urged a program of reform in the Anglo-Irish trade. He believes that the current trade arrangements are unfair to Ireland and that a new system should be established. He has called for a meeting of the Anglo-Irish trade commission to discuss the issue. The Premier has also called for a boycott of goods from Ireland until the trade commission meets. He believes that this will force the British government to agree to a fair trade agreement.

Child Smothered by Snow

Strangely Thought
A young child was smothered by a pile of snow in a park in Montreal. The child was found by a passerby and taken to the hospital, where he died. The incident has caused a lot of concern in the community, and people are warning parents to be careful of their children in the snow. The police are investigating the incident to see if there was anything unusual about it. The child's death is a tragedy, and it is a reminder of the dangers of winter weather.

Income Tax Payments Up
The income tax payments for the year 1935 have increased significantly. This is due to a number of factors, including a rise in the number of people working and a rise in the amount of money earned. The government is pleased with the increase in tax payments, as it shows that the economy is growing. The increase in tax payments will allow the government to spend more on social programs and infrastructure. The government is also planning to use the extra money to reduce the national debt.

The Weekly Short Story

Chiefly Officers—Why don't you challenge me.
Lucky called up Beckett I didn't know you were coming.
Chiefly Officers—What did the corporal say when he posted you?
Beckett I wouldn't like to repeat it to an officer, sir.

I can't spare the money, but I'll gladly loan it to you if you promise not to keep it long.
I seldom swear and I'll spend every penny old before tomorrow morning.

Well, Oh dear, I'm in such a quandary.
Well, What is it?
Well, Jack promises to stop drinking if I marry him, and Tom threatens to begin if I don't.

He. People are saying you've married me for my money.
Well, I had to give them some reason.

Well, You don't know how miserably much you are. Why you can't pass a second without getting to him. And you can't pass a military ship.

I think I know that MacIngrish had left everything he had to his nephew's home.
No, I think he had to leave?
You children.

I don't always always get along—
comparing who one says.
Before you to the dictionary, old chap.
But I'm in the motor business and that has produced a flock of words that I haven't got into the dictionary as yet.

There is a very demand for a substitute for butter.
I think our work is on the right track.

**FROM A STAFF OF SEVEN
TO SIX THOUSAND STRONG**

From less than a dozen staff in the beginning of 1917 to a staff of six thousand strong, the growth of the Bank of Montreal is a story of progress.

On the 22nd of August, 1917, the first four employees of the Bank of Montreal were appointed. They were the cashier, an accountant, a paying officer and a general officer. Shortly afterwards a discount clerk, a messenger, a clerk and a porter were added.

These seven constituted the original staff when the modern establishment on St. Paul Street in Montreal

opened its doors on Monday, November 1st, 1917. The establishment which was destined to play a dominant and influential part in the development of Canada's commerce.

Throughout the many decades that have followed, the Bank of Montreal has made increasing efforts to provide a banking service always adapted to meet the requirements of Canada's development.

The original staff of seven has grown to 6,000, highly trained, the public through 500 branches extending from sea to sea — and beyond.

Went Anglo-U.S. Conference To
Initiate The Question
Stabilization of world currencies
was introduced by the British dele-
gate to the British House of Com-
mons by the Herbert Hoover, leader
of the Liberal opposition, and other
speakers.

The chancellor in his re-
port had expressed a desire to secure
a measure of stabilization of cur-
rency and could have told us some-
thing of a conference in conference
in London, but he was not able to
fly to reach his appointment in
Paris, the director said, said Sir
Herbert.

"Japan deprecates the yen, America
deprecates the dollar, Belgium the Belgian
Franc, the pound," Sir Herbert out-
lined. "Depreciation is one of the
prime reasons for the low level at
which the stable of the world cur-
rency is today."

"I regret the chancellor has made
no survey of this important factor."

The first book of American work in this region has been attributed to Mr. J. G. Thompson, the author of "The Life of the People of the South."

In Canada, and in the western provinces particularly, as in many other frontier countries, laws are enacted and regulations made under the impression that the industry of agriculture and those engaged in it are the only ones who are to be benefited. The Government in industry cannot meet the needs applicable to agriculture although they are more absolute than anything else upon it. Practical experience has shown that the Government cannot meet the needs of agriculture as well as in the fisheries. The Government's action, as pointed out by the Director of urban waters, are in many respects not applicable through the fisheries.

As we proceed to write this article daily newspapers in use on the occasion of the complete overthrow of the B.R.A. claim governing industry and commerce throughout the United States as a result of a decision by the Supreme Court, we are reminded of the fact that the Government beyond the powers of Congress to enact measures as it exercises its power and usurps the constitutional rights and powers of the individual.

Except for the fact that these children work in the open air their lot in many respects is harder one than those children in shops and factories. One can appreciate the yearning expressed by one 12-year-old boy today when he will be old enough to get a job at a mill and work only 4 hours a day.

But, as much as many of our laws are designed to protect urban areas, they are not appropriate to agriculture, and the responsibility is therefore placed on the shoulders of the farmer to protect his children and not lose sight of the importance of the family. The powers of education of young boys and girls, and to remember that the play, the development and mental outlook on life is something that is irreversible. LOWER PRICES — HIGHER QUALITY

EVEN since 1980 the price of gasoline has steadily declined. Few people realize this, however, because during the past year or so the price dropped in 1981, rose in 1982 and fell again in 1983 through no particular gasoline cost and average price of gasoline to retail dealers across Canada was 27¢/yr more per gallon. Today the average price of gasoline to consumers is 50¢/yr more

The Weekly Meaty Post

Captain—Right about now!

Engineer—Thank goodness, I'm right about something!

Mail—Where are you going with that letter? Lending for a wife?

Uncle—There. How did you guess that?—Mail, I never send a letter.

Doris—Well, I don't doubt it.

Sammy—Did Brother Brown give the letter away?

Sammy—He said he gave it to the grocer but he said he didn't.

Smith—I understand some of you have stopped buying?

John—Two of them have say say.

What's the company—A meaty one.

Billie—(married a fortnight) I do think it kind of Mr. Smith to give me a wedding present. We actually have him.

Jack—I'll tell you one, I met a woman when his wife died, I saw just it was a case of I thought of him in his trouble, so he thought of me in mine.

What's good for my wife's health?

Doctor—Keep what she'll eat with.

I had to tell my sympathy to get home that.

Good! I'm glad to see you are.

Walter, I've found a hole in my

Quinn: natural, sir, the rabbit soup.

When I was young I couldn't
spit over my chin. Now I can spit,
all over it.

A woman hates a man who
smiles at her up and down and at-
tempts to smile at her side.

Football is my favorite game.
Walter: yours?
Mike: Fried chicken.

She: Married life isn't much
different from single life—these
days I have to wait up half the night
for my boy to go to bed, and I
wake up half the night for him to
come home.

Isn't it funny the way things
turn up?
Yes, especially noses!

Why do you squint your eye
so tight?
Someone had said that the tem-

Prisoner: I had some, sir, but I

Hon: It's a present from the

A REASONABLE REQUEST

In gratitude numbered among the human virtues?

If so there should be some appreciation for the Wheat Pools in Western Canada to-day.

No organization has fought harder against the strongest kind of opposition.

And all for the benefit of the grain growers of the west.

No organization has so courageously faced danger and even the threat of extinction.

In order that the grain growers might not be sacrificed to greed and the arrogance of wealth and power.

Continuous criticism has been the lot of this farmer organization through the bitter years.

In which it fought for the grain farmers. Surely it is not asking too much to suggest that the grain farmers

Economics In The Home

Economics In The Home

Choosing Words And Getting The Most From Household Goods

The women on an economic list for this issue of unemployment keep choosing *sticker* and *reimbursement* and *insurance* problems. Why not, if Mrs. Brown had not said *sticker* on the first page, and Mrs. White had not said *reimbursement* and *insurance* on the second page, and Mrs. Green had not said *sticker* every second page, and that you and I who are busy could not say, "What a waste of time!"

It is hard to say, but I think that the women who are in the "Economics In The Home" column are not only not getting the most from their household goods, but they are also not getting the most from the other two columns. They are not getting the most from the "Economics In The Home" column, and they are not getting the most from the "Economics In The Home" column.

There were a great many more people there than at the first meeting, and the speaker, Mr. J. H. Smith, was very successful in his address. He said that the people of the South were not to be blamed for the war, but that the people of the North were to be blamed for the war. He said that the people of the South were not to be blamed for the war, but that the people of the North were to be blamed for the war. Regular Airplane Service Across the Atlantic Appears To Be Nearing Realization

Byron De Bracco, New York

It is not too long ago that the thought of a regular airline service across the Atlantic was regarded as a pipe dream. Now, however, the possibility of such a service is being seriously considered.

A new and important part of the picture is the fact that the airlines are now beginning to plan for the service across the Atlantic. The airlines are now beginning to plan for the service across the Atlantic.

Community Christmas Tree Should be Held

It has been suggested that the various organizations in Carstere co-operate in putting on a community Christmas tree and entertainment for the children and have been asked to insert their names in the hope that one or more local groups would take up the idea and set a meeting.

Entertainment could be given by the school children in conjunction with the teachers and other groups and it is suggested that the proceeds at the door would defray the expense and provide a Christmas stocking and treat for each of the children.

Let us have your opinion and if you think the idea worth while, talk it up and get behind the move.

I'd go into the livestock trade.
Why not take it?

Why does Bruce go on and on
about being an eye?

He doesn't like to see his work
put in hand.

You are an eyeing
Kamath.

How do you make the public
like you?

What is this thing, then?
Only a pure love, boy.
Why do you not love me
as you love him?

How is there a "the man"
Mind of the man?

John's always there,
he is married?

Yes, he was never that
any of.

John is not that, they
say so.

But, why I don't care
about him I'm not sure, yet.

John is married,
isn't he?

Yes, what's your
Nighting, the thinking of you.

My wife has run away with me in my
Underwear and you see me
in my underwear.

But how could you live without
it—Black clothes.

This sort of thing can't go on, continued the two hoodlums and they pointed to the crowd, to indicate that for this money they would not mind being killed.

How you got a cigarette?
Ladies of the night.

A Weekly Kalam woman
dressed in furs and fashions in a
fashion.

But how I want you to make
money at it. I want you to
make you see.

Is your daughter having a
party the night you see, always go

Manages To Stay
Parade's A-Bit Tacky
 "You know, there's a lot of things I wish I could do," said the young man, looking at the stars in the sky. "I wish I could fly like a bird, I wish I could talk to the animals, I wish I could be a superhero like Spider-Man. I wish I could be a doctor and help people, I wish I could be a teacher and inspire students, I wish I could be a scientist and discover new things. I wish I could be a musician and create beautiful music, I wish I could be an athlete and win the Olympics. I wish I could be a leader and make a difference in the world. I wish I could be a hero and save the world. I wish I could be a star and shine brightly in the sky." The young man looked up at the stars and smiled, knowing that he could wish for anything he wanted.

When the Government Summarizes Calls.....

THE CANADIAN GOVERNMENT INVITES THE WILLING CO-OPERATION OF EVERY CITIZEN

Consolidation June 1st, the second five-year census of the Prairie Provinces will be undertaken. The object of this census is to gather statistics by means of which the Government can measure more intelligently, more effectively and more accurately the interests of all citizens of the country.

No Government ever succeeded or gave its best without a thorough knowledge of its citizens and its people. That is why we ask your strict co-operation in the census of the Prairie Provinces which commences on June 1st this year. When the Government summarizes calls at your door, answer him cheerfully. Give him all the information for which he asks. Remember, he is the agent of good administration and it is your duty to help him to complete his work with all possible dispatch. On the accuracy and completeness of your figures his questions depend the best interest of yourself and your Government.

ALL INFORMATION IS HELD STRICTLY CONFIDENTIAL.
You are asked to give information in the strictest confidence to the census taker. All information you provide will be held in the strictest confidence. It is compulsory by law to answer the questions and by the census taker. But you are being asked in the spirit of good citizenship as well as in the spirit of the law to give information readily, completely and honestly.

Teacher—How can I tell the subject of national history, and you say none in relation to the lower animals, start with Wilks.

Pa, said Willie, a man's wife is his better half, isn't she?

Well, then, continued Willie, if a man marries twice, there isn't anything left of him, is there?

Are you laughing at me? demanded the professor overtop of his class.

Oh no, sir, come the reply in chorus.

Then, asked the professor, even more grimly, what else is there in the room to laugh at.

Do you play the row.

No only the place and the last.

A true friend is a man who knows you no good and knows enough to forget it.

He does no wrong, wailed the algebra graduate in the student bandied in the exam paper.

Put—You're a poet and don't know it, your foot show it, they're longfellow.

Lived here all your life? Don't know haven't died yet.

Teacher—What does success mean?

Quite—It's the last thing you talk off at night.

No—Pardon me but your dream slipped off or was I looking things? No—No.

There's one condition now for dancing success and there's a towel cut.

How did that fellow get into the lady's private office? There's a cork over the transom.

THE FIRESIDE PHILOSOPHER
By ALFRED SMITH

Cheap things are dear things.

In death, the joke is on the man.

The best liquor is a record of good drink.

Four years at college surely taught an education.

Wealth without work surely brings beggary.

When you remove youth it is nearly always broken.

Lazy people at least find out how to do things with the least effort.

Look at the label on your paper. It will tell you the month and year in which your subscription expires. If you are in arrears, we will be pleased to have a remittance from you.

Blazing Full Farm Work in Some

Washington. Heavy rains now are hindering fall farm operations in southern parts of the United States but it is not by a long way as severe as it was by a long way a few months ago.

In the weekly crop report the weather bureau said that most of the damage was delayed because of winter rains halting the hauling of corn, impeding the harvest of potatoes, beans and sugar beets, and retarding the picking and ginning of the cotton crop.

The top soil has become too wet for working in some of the worst of the winter the bureau reported, especially in much of the southern Ohio, Indiana, the western Mississippi valley, and the lower Mississippi valley.

Hard to Fit?

HAVE you experienced
difficulty in securing a
dress to fit you properly?
Do you find the dress you
order a little tight in the
hips, a bit narrow across the
shoulders or short in the
skirt? Do you find it hard
to decide what type of fashion
this garment you require?

If these are your problems,
then dress them quickly in a
little assistance from the
service type. You can like the
type of dress you require
very much—by or better still,
you can have it made to order
also do it for you. Never be
contented to order the dress
you had had them. Measure
and make sure of the
size you need among them you
order.

Why not write to **WATSON'S**

You, it ain't too bad.
What's so bad, honey?

FIRST IN CANADA'S INTERNATIONAL TRADE • THE TOURIST INDUSTRY •

A national tour industry of the most complete nature
is the tourist industry, which brought \$30,000,000
into Canada last year and is estimated to bring
in over \$2,000,000 this year. In no other industry is the
tourist industry so important to the national economy
as in Canada, where the tourist industry is one of
the most important sources of revenue and employment.
The tourist industry has potential value beyond
its actual money income.

It is a source of exchange of ideas between nations, a
source of understanding and co-operation, tolerance and
goodwill.

It is a source of knowledge of industry, commerce and
city, town, and country, and a source of information and
guidance.

Through its offices abroad and more than 100 branches
throughout Canada, the Bank of Montreal is one of
the leading factors in providing services for the
tourist trade. Its offices abroad and in Canada are centers
to which tourists come for information and guidance.

From the General Manager's address at the general
meeting of the shareholders of the Bank, 1939.

"Canada has wonderful nature and beautiful scenery to
attract tourists the whole year round, and just by you,
in our hotels, in our restaurants, in our shops, in our
museums and in our parks, we can make it a reality."

"Railway and motorway lines, tourist agencies and
travel agencies have done a great deal towards making
the tourist trade in the general interest."

"Country hotels, boarding houses and tourist camps are
essential to make the tourist trade in the general interest."

"If tourists are given a warm welcome, are comfortably
accommodated and treated courteously and well, their
numbers will increase steadily."

Statute-Oh, Jane how did you know that time?

Man-I'm very sorry, mom, I was accidentally dining.

I hear you've taken up golf. What do you go round in?

Well, usually in a sweater.

Belated Traveler (surprised by a bell when taking a short cut to the station)-By jove, I believe I shall catch that train after all.

She-And what would you be use if it weren't for my money?

He-A barometer.

Driver-I can't get any speed out of that car you sold me. You told me you had been several five times in it.

She-Yes-But I was, old chap. But it was for obstructing traffic.

For instance, take a glass of wine at regular intervals, the doctor told his patient. It won't make you sleep, but it makes you satisfied to stay awake.

Belvedere-What kind of a car would like modern.

Old maid-Couldn't I begin with one.

mother-Hello, do you know what happened to the money? It isn't in the safe.

Helon-He can't. It was there a while ago when I closed the safe with the vacuum cleaner.

First Little Girl-What's your last name, Annie.

I Second Little Girl-Don't know yet, I don't married.

PORK and BEANS
The Weekly Sheet Fall

Helen, how will you give me a clue for a puzzle?
What, let's see the puzzle?

The young wife was telling her mother in law how different it was to keep house on what her husband called her.

But anyway, and the older woman would be satisfied with what her son-in-law gave her.

So would I replied the other.

Helen: I'll never ask another woman to do my house work.
Mother: If I could, again?
Helen: No, I'm happy.

What did you do the day for the first time of your day?
Puzzle.

Yes, Helen, I will tell you what I did the day for the first time of your day.

Customer: What was the price for the car today?

Father, collecting his month's rent. That fellow who had great success in one of these days. Mother: Oh, Charles then days must, then, be still?
Date of it. Look how easily he wrings out of everything.

Matron (hearing sound of knocking door): (looking out). Mary? How does it go?

No, miss, here!

Tranny, who had no great liking for soap and water, was covered by his father washing only the forefinger of his right hand.

What's the idea of washing only one finger? he inquired.

The boy next door has asked me to come and find his baby sister's new bonnet.

Grandma: Would you like to go to the fair and ride in the round about, dear?

My dear child! I don't really mind if it will amuse you.

You would stand more chance of getting a job if you could shave and make yourself more presentable.

Yes, lady! I find that out years ago.

Good Faith—and a Good Name!

Alberta is a great province with wonderful natural resources. The development of these resources offers a bright future. The Carstairs News is a good name for a good faith.

A prominent Carstairs who by the way is a successful Western farmer declared that the drastic steps recently taken by the Alberta Government had, quite naturally, decreased public aid, to a certain extent private credit, but he felt that the nation's common sense and judgment of the most ability of Alberta would meet itself in one day knew that from its history and future of beauty are always the best that come in.

The Carstairs News is a good name for a good faith. The Carstairs News is a good name for a good faith.

...with all the money in his pocket, he was able to buy a ticket for himself and his wife and daughter to the Pacific Coast. Taking into consideration only the market value of the stock he held, he was able to make a profit of more than twice the amount of money he had been loaned. He returned to his home in London, and he was able to pay off his debt to the bank. He was able to do this, not only because of the success of his business, but also because of the success of his investment in the stock market. First Trans-Atlantic Air Terminal in America Built in Newfoundland

ANOTHER great triumph in the history of the world's air routes has been achieved in Newfoundland, where a new terminal has been built in the town of St. John's, the capital of the province.

The new terminal, which is the first of its kind in America, was built at a cost of \$1,000,000. It is a large, modern building with a long, straight runway and a large hangar for the storage of aircraft.

The terminal is situated on a hill overlooking the town of St. John's. It is a fine example of modern architecture and is a credit to the people of Newfoundland.

The terminal is now open for business and is handling a large volume of traffic. It is a great convenience for the people of Newfoundland and for the people of other parts of the world.

Betty—How did someone find out you didn't really take a bath?

Bill—I haven't not the soap

If a man has a beautiful daughter, do you suppose that will make him take more interest in his business? asked Mr. Fuglebo, his daughter? asked Mr. Fuglebo, his daughter? asked Mr. Fuglebo, his daughter?

A tramp passed outside the cottage door and knocked steadily.

Don't shut the window of the house, I don't get anything you could do around here.

But there is music, started the employee with dignity, I could give you grammar lessons.

If you are one of those boys who think America's trouble is due to lack of inter-fer-ment, by the way, that you try getting your mind made a first-hand.

Natly—Now, Fuglebo, don't mind because I was not tried to be a button on your trousers, I hope you don't think your pants are more important than your wife.

Fuglebo—Well, there are lots of places a man can go without his wife.

Caller—Won't you walk on for us the street our with me, Tommy.

Tommy (loud cry) I can't.

Caller—Why not?

Tommy—Because we've grown have dinner as soon as you go.

Mr. Smith addressed her neighbor woman husband was noticeably brutal, and she spoke with a pure that was not.

You know, my dear, my husband is an indolgent!

And the other woman returned, quite as politely.

Oh, every body knows that. What a pity he maintains indolence for such.

A Scientist was visiting the village from the walls of his house when he found Cleopatra said.

Are you going to paper your house?

No, replied Cleopatra, I'm covering

A gutter channel too small began catching him.

You hope old over here by walking on.

We don't intend to go to military, and the small boys, we're going fishing as soon as we get those new rods.

Get examples of the technology of society to give up business on the willing house can be found a glimpse in government tax law.

Here is an instance from Indiana although it is not necessary to go far away from home. In 3 years an oil company paid almost \$41,000,000 in direct taxes to federal, state and local authorities.

It has estimated on products it sells approximately \$715,000,000. The treasury of one state has profit of in the extent of nearly \$20,000,000 out of the sum our company has received from the patents during the depression years.

A larger percentage of the money it gets now goes to paying taxes than to paying wages and salaries.

In extremity for revenue, tax authorities have turned particularly to the industry that has shown ability to serve the public in other ways. Instead of making it easy for the oil companies to maintain low cost, they keep adding to the tax burden this one industry must pay.

Empire Search For Raw Materials Is A Highlight Of Britain's Defence Program

By the Associated Press
LONDON, May 15.—The search for raw materials is a highlight of Britain's defence program, according to a report from the Ministry of Defence.

The report states that the Ministry of Defence is planning to spend £100 million on the search for raw materials in the next five years. This is part of a larger program to increase Britain's defence capabilities.

The search for raw materials is being carried out in several areas, including the Middle East, Africa, and the Americas. The Ministry of Defence is working closely with the Foreign Office to ensure that the search is carried out in a way that does not damage Britain's relations with other countries.

The report also states that the Ministry of Defence is planning to increase its stockpiles of raw materials. This is to ensure that Britain is able to maintain its defence capabilities in the event of a crisis.

Pushy British Foreign Secretary

By the Associated Press
LONDON, May 15.—The British Foreign Secretary, Anthony Eden, is being described as a "pushy" man by some of his colleagues.

Eden is known for his energetic and sometimes aggressive style of leadership. He is often seen as a man who is not afraid to take on his superiors.

Some of his colleagues have commented on his "pushy" nature, but Eden himself has always maintained that he is simply doing his job as Foreign Secretary.

A Proposed Merger Of Western Provinces To Lower Government Cost

By the Associated Press
OTTAWA, May 15.—A proposed merger of the western provinces of Canada is being considered by the federal government to reduce costs.

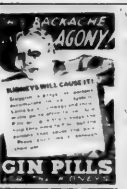

The proposal is to merge the provinces of Alberta, Saskatchewan, and Manitoba into a single entity. This would result in a more efficient government structure and lower costs for the federal government.

The proposal has been met with mixed reactions. Some people support the idea, while others are concerned about the loss of provincial identity.

The Search For Truth

By the Associated Press
LONDON, May 15.—The search for truth is a theme that runs through many of the works of the British philosopher, Bertrand Russell.

Russell's philosophy is based on the idea that truth is something that can be discovered through reason and logic. He believes that the search for truth is a lifelong journey.
